

The Patient Engagement Platform

CERTIFY Global's CERTIFY Care platform is not meant to replace patient engagement but to enhance it. At every stage, we provide a modernized solution to outdated processes that will personalize your patients' experience and increase efficiency throughout your entire practice.

CERTIFY Care Platform Features:

DASHBOARD

Customize. Integrate. Authenticate. Evolve.

Control the CERTIFY Care platform from the Dashboard; the simple, user-friendly interface. Give your staff the ability to do everything from checking patient records and taking payments, to pulling practice analytics, all in one place.

TABLET & KIOSK

True clipboard replacement

CERTIFY's Tablet and Kiosk simplifies and fully integrates patient engagement and information gathering, giving you a modern and paper-free engagement process.

BIOMETRIC AUTHENTICATION

Right patient, right care

CERTIFY's Biometric Authentication helps reduce duplicate records, ensure correct care, and ease the sign in process with little effort on your part.

MyMedical

The patient portal for modernized healthcare

Take a modernized approach to your patients' experience outside of your practice. With MyMedical, give your patients access to appointment setting and medical records from anywhere.

REV CYCLE

Integrated and simplified payment solutions

Gain access to fully secured and fully integrated payments through CERTIFY Care's Rev Cycle.

CONNECT

Speaking every EHR language, so you don't have to

Full integration and interoperability across any EHR, made possible through CERTIFY's unique Connect technology.
